

SHUFFLE-THE-ARRAY

```
class Solution {  
    public int[] shuffle(int[] nums, int n) {  
        int len = nums.length;  
        int[] ans = new int [len];  
        for(int i = 0 ; i < len ; i ++){  
            if(i % 2 == 0){  
                ans[i] = nums[i / 2];  
            } else{  
                ans[i] = nums[n+ i /2];  
            }  
        }  
        return ans;  
    }  
}
```
