

LARGEST NUMBER

```
class Solution {
    public String largestNumber(int[] nums) {
        String[] array = new String[nums.length];
        for(int i =0; i < nums.length ; i ++){
            array[i] = String.valueOf(nums[i]);
        }
        Arrays. sort(array, (a,b)->(b+a).compareTo(a+b));
        if(array[0].equals("0"))    {
            return "0";
        }
        StringBuilder largest = new StringBuilder();
        for(int i = 0;i < array.length;i++){
            largest.append(array[i]);
        }
        return largest.toString();
    }
}
```
